SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES INLAND REGION

- See Fire Activity Slides.

Cal OES COASTAL REGION

- See Fire Activity Slides.

Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

Per the Cal OES Southern Region AREP on [06/14/18 at 0846 hours](#):

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.
- [Incident Management Teams \(IMTs\) are transitioning on 06/16/18. The IMT Red Team will start on 06/17/18.](#)

Activations

- San Bernardino Operational Area (OA) EOC is activated to Level 3 (lowest level) and will continue to monitor the incident.

Deployments

- One (1) Cal OES Southern Region Senior ESC deployed to ICP as an AREP. Operational period of 0700-1900 hours.
- See Fire Activity Slides.

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

COASTAL REGION

Beaver, Vegetation Fire, San Benito County

Location: Coalinga Hwy x Airline Hwy, East of King City

Jurisdiction: State DPA, SRA

Start Date/Time: 06/12/18 at 1504 hours

Per Cal OES Duty Officers and ICS-209 as of [06/14/18 at 0606 hours](#):

- 215 acres, grass, [65% contained](#)
- Expected Containment: [06/18/18](#)
- Fire is burning in steep and difficult terrain
- Ground resources continue to improve and secure control lines

INLAND REGION

Chrome, Vegetation Fire, Glenn County (Final)

Location: Hwy 162 x Forest Hwy 7, north of Elk Creek

Jurisdiction: State DPA, SRA, Tehama-Glenn Unit

Start Date/Time: 06/09/18 at 1532 hours

Per Cal OES Duty Officers and ICS-209 as of [06/14/18 at 0619 hours](#):

- 2,290 acres, [90% contained](#)
- Expected Containment: [06/16/18](#)
- 1 structure destroyed
- Resources continue to strengthen and patrol containment lines

FIRE ACTIVITY

SOUTHERN REGION

Euclid, Vegetation Fire, Riverside County

Location: Euclid Ave. x Hwy 71, 6 miles south of Chino

Jurisdiction: State DPA, SRA, Riverside Unit

Start Date/Time: 06/12/18 at 1430 hours

Per Cal OES Duty Officers and ICS-209 as of 06/14/18 at 0727 hours:

- 120 acres, grass and brush, 40% contained
- Expected Containment: 06/17/18
- Crews continue to strengthen containment lines as fuels are receptive to spotting
- Difficult terrain continues to hamper control efforts
- 1 Cal OES Fire Assistant Chief assigned

Portola, Vegetation Fire, Los Angeles County (Final)

Location: Westwanda Dr. x Benedict Canyon Dr.

Jurisdiction: Local DPA, LRA, Los Angeles City

Start Date/Time: 06/12/18 at 1456 hours

Per Cal OES Duty Officers as of 06/13/18 at 1200 hours:

- 35 acres, 40% contained
- Cal OES Duty Officers are monitoring

Santiago, Vegetation Fire, Orange County (Final)

Location: Hwy 241 x Santiago Canyon Rd.

Jurisdiction: Local DPA, SRA, Contract County

Start Date/Time: 06/11/18 at 1704 hours

Per Cal OES Duty Officers and ICS-209 as of 06/14/18 at 0554 hours:

- 155 acres grass, 100% contained
- Expected Containment: 06/14/18
- Resources continue to mop up and strengthen control lines

MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

No 911 Outages	No 911 Outages	No 911 Outages

911 Outages/Remote/Community Isolations:

COASTAL REGION

Angwin, Remote Office Isolation, Napa County

On 06/13/18 at 1239 hours, the California State Warning Center (CSWC) was notified by the CA 9-1-1 Branch that customers who receive service from the Angwin Remote Office lost dial tone and were unable to make 9-1-1 calls due to a network event.

- Napa County Sheriff's Office was advised of the outage.
- There were 2,127 telephone numbers affected.
- The issue was a bad card in the St. Helena Main Central Office serving as the host to the Angwin Remote Central Office
- As of 06/14/18 at 0225 hours, CA 9-1-1 Branch advised CSWC service was restored.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

- Above normal temperatures are forecast to continue today; afternoon highs at many locations in the San Joaquin Valley are expected to reach around 100 degrees, resulting in widespread areas of moderate heat risk.

Weather Advisories, Watches, and Warnings currently active in California:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

Key Points

06/14 – 06/20

Thursday

- Moderate – high heat risk and critical fire weather conditions Central Valley and most of SoCal

Friday

- A slight chance of thunderstorms causing strong winds, blowing dust and fire starts in the SE
- Critical fire weather conditions due to dry, warm and windy weather most of Central and SoCal

Saturday-Wednesday

- Dry and breezy conditions continue for most areas of the State.

	No Discernible Threat

Day 1 Weather Hazards

Valid: 0800 Thu – 0800 Fri

-  High Threat
-  Moderate Threat
-  Slight Threat

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

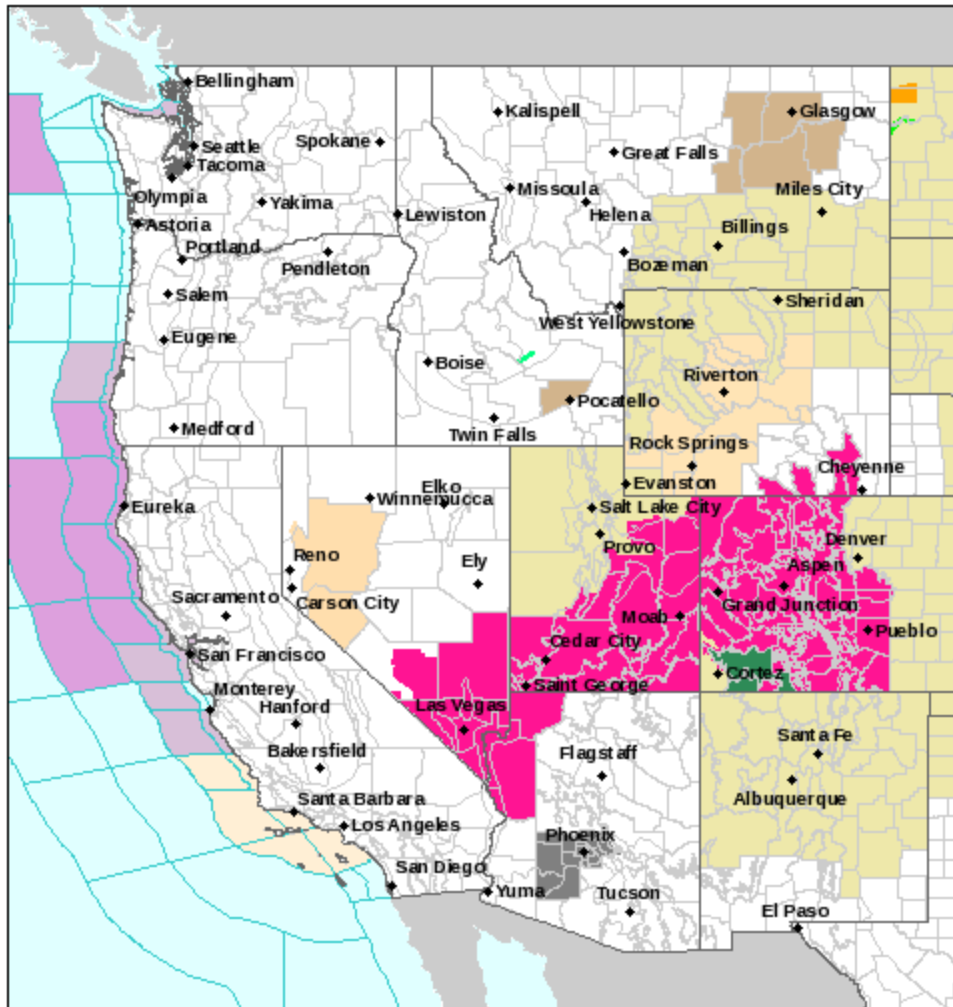

The Pacific trough which began to impact the region yesterday will get cut off from the jet stream and impact the region through early next week. This means increasing unsettledness especially during the weekend. A few spot showers across the far NE could start as early as Friday evening but the main shower and thunderstorm days should occur during the weekend, mainly afternoons and evenings and favoring the NE quarter. This includes NE-Far Eastside and Northern Sierra Predictive Service Areas (PSA's). Showers and thunderstorms should linger over the same aforementioned areas early next week. The weather models have had a harder time deciding the center placement of the cut off Pacific low and how it gets caught back up in the jet stream. Thus forecast confidence for next week remains low but a warming and drying trend area wide should eventually develop. Afternoon temperatures will continue to gradually cool the next few days. Near to below normal temperatures are expected most areas during the weekend and should remain that way until the low exits the area. The North Coast PSA is actually expected to see near to above normal temperatures during this period because of the position of the low. Locally breezy conditions with gusts up to 25 mph is expected across the NW quarter as well as across the Delta Region and along the east slopes of the Sierra Range this afternoon but the wind flow should increase most areas Friday with lasting effects into Saturday. Again this will all be dependent on where the low sets up but gusts up to 30 mph will be possible favoring the east slopes of the Sierra Friday afternoon. Breezy and drier northerly winds should impact the NW third of the region Saturday afternoon.

SOUTHERN CALIFORNIA

The ridge of high pressure that has been centered over the Desert Southwest the past few days will shift to the east bringing a few degrees of cooling today. Maximum temperatures will be in the mid 70s to mid 80s across the mountains and upper 80s and 90s in the valleys. Minimum humidity will be mainly in the teens away from the coastal areas, but widespread single digit humidity will continue over the deserts. There will be southwest to west afternoon and evening winds of 15 to 25 mph with gusts to 40 mph across the desert passes today. An area of low pressure will form over the Pacific Northwest Friday and then move slowly south through this weekend bringing much cooler temperatures and a significant increase in humidity to the region. By this weekend, temperatures in the San Joaquin Valley will drop into the 80s while other valley locations drop into the 70s. The marine layer will become deep and morning low clouds and fog will make it onto the lower coastal mountain slopes by Saturday. Southwest to west afternoon and evening winds of 20 to 30 mph with gusts to 50 mph will surface across the desert passes Friday through this weekend. The low pressure area will weaken and move into the Great Basin bringing a slow warming and drying trend to the region Monday through the middle of next week. Southwest to west afternoon and evening winds will decrease to 15 to 25 mph with gusts to 40 mph across the desert passes Monday through the middle of next week. Isolated afternoon showers and thunderstorms will be possible over the Sierra Sunday through the middle of next week.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

New Cal OES Law Missions

- **2018-LAW-47277, 06/14/18, 0100 hours:** The International Emergency Response Coordination Center (IERCC) reported an inReach device activation in Inyo County at coordinates: 36° 33' 42" N, 118° 17' 04" W, plotting approx. 1/4 mile from the Mount Whitney Trail. The R/O sent a message from the device saying he is lost and needs assistance. The Cal OES Law Duty Officer (LDO) called Inyo County Sheriff's Office and spoke with their SAR Coordinator who stated they wouldn't be able to reach him with a ground team until morning and were unable to launch a helicopter; they are messaging him with instructions on sheltering in place or, if he's able, to make it to the trail which is just a short distance from his current location. **Update: 0630 hours:** Inyo SAR advised they may have to send a helicopter for an extraction as the R/O is stating he injured his knee and can't continue. **Update: 0853 hours:** Inyo SAR advised they have coordinated with CHP H-80 for the extraction. **Mission Ongoing.**

Closed Cal OES Law Missions

- **2018-LAW-47160, 06/12/18, 1500 hours:** Originally opened on 06/09/18, Yolo Sheriff's Office (SO) requested to reopen this mission to search the area where mutual aid K9s previously indicated and where excavation is currently in progress. They are requesting 2 HRD K9s for 06/13/18 at 0800 hours or as soon as available. **Update: 06/12/18, 1908 hours:** Cal OES K9 Coordinator secured 2 teams for the search on 6/13/18. Yolo SO advised. **Update: 06/14/18, 0724 hours:** Yolo SO SAR advised the K9's completed their mission without significant developments and have been released. **Mission Closed.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
